

Personal Protective Equipment Now Available

Personal protective equipment, or PPE, including disposable masks, gloves, and hand sanitizer, is available to employers of record (EORs) participating in the consumer direction program at no charge. This PPE is available to EORs to provide attendants with the appropriate protection while they care for the Medicaid member.

EORs can place an order each month through December 30, 2020.

To be eligible for this program, the EOR must employ attendants who provided services and were paid during the previous month. New consumer-directed services participants can send an email to CDSF@dmas.virginia.gov to get access to the program.

To order PPE for your attendants, go to: <https://dmas-ppe.medicaid-resources.com>. You will need your employer identification number used with your fiscal/employer agent and the member's Medicaid ID number.

For more information about the use gloves and face masks, click the links below:
